

Jeffrey's Exif Viewer

Open de foto waar je de Exf wil van zien in een nieuw tabblad.

De url boven de foto selecteren en deze kopiëren

Jeffrey's Exif Viewer open via deze link

<http://regex.info/exif.cgi>

De kopie van de url plakken plakken in Image URL. Drukken op enter en je ziet alle exifs van deze foto.

The screenshot shows the Jeffrey's Exif Viewer website in a browser. The address bar contains the URL: `regex.info/exif.cgi?imgurl=http%3A%2F%2Fwww.seniorennet.be%2FPages%2FMailgroepen%2Fattachements%2F0d8e1e1fa0f84e55fb1bc4d5076f7d6UDEwMjAxNTUuSIBH.JPG`. A red arrow points to the "Image URL" input field. The page title is "Jeffrey's Exif Viewer".

On the right side, there is a pink box titled "Jeffrey Friedl's Image Metadata Viewer (How to use)" with a note: "Note: extra functionality is enabled when you use Firefox or another Gecko-based browser..". Below it is another pink box titled "Some of my other stuff" with links to "My Blog", "Lightroom plugins", "Pretty Photos", and "Photo Tech".

The main content area is titled "Basic Image Information" and shows the following metadata:

| | |
|-----------------|---|
| Camera: | Panasonic DMC-FZ200 |
| Lens: | 106.6 mm (Max aperture f2.8) |
| Exposure: | Auto exposure, Aperture-priority AE, 1/400 sec, f/4, ISO 100, Compensation: -0.33 |
| Flash: | Off, Did not fire |
| Focus: | Auto AF Area Mode: Tracking Focus point highlight: [click to hide] |
| Faces: | One face detected [click to hide] Note: the marked location may be wrong if the photo has been rotated, cropped, or edited. Also, it's the location when focus was <i>locked</i> , not when the photo was <i>actually taken</i> , so the camera or subject may have moved in the intervening time. |
| Date: | May 10, 2013 2:42:50PM (timezone not specified) (1 year, 5 months, 19 days, 20 hours, 25 minutes, 16 seconds ago, assuming image timezone of US Pacific) |
| File: | 708 × 1,020 JPEG |
| Color Encoding: | WARNING: Color space tagged as sRGB, without an embedded color profile. Windows and Mac browsers and apps treat the colors randomly. Images for the web are most widely viewable when in the sRGB color space and with an embedded color profile. See my Introduction to Digital-Image Color Spaces for more information. |

Below the metadata table, there are two image thumbnails. The left one is titled "Extracted 160 × 120 5.6-kilobyte 'Composite:ThumbnailImage' JPG" and is displayed at 200% (11% of the original area). The right one is titled "Main image displayed here at 44% width (19% the area of the original)" and is displayed at 44% width (19% of the original area). Both images show a close-up of a child's face with a red bounding box around the face.

The Windows taskbar at the bottom shows the system tray with the date and time: 19:09, 30/10/2014.

Mvg
